

SEBO X-SERIES

MADE IN GERMANY

STRONG, VERSATILE AND INTELLIGENT: SEBO AUTOMATIC X-SERIES

Pure Performance

THE SEBO AUTOMATIC X RESPECTED WORLDWIDE

Professional users worldwide prefer SEBO, with good reason! Our success is due to our innovative products and our strong focus on quality. Modern technology, state-of-the-art design and consistent customer focus are found in all SEBO products. Try a SEBO Automatic X-Series upright vacuum cleaner and you will be impressed by the outstanding cleaning power, its first-class filtering system and, of course, ease of use.

Changing the filter bag is simple and clean - when the bag is sealed, no dust can escape.

Easy brush care - Removal and maintenance of the brush roller requires no tools!

POWERFUL, PRACTICAL AND EASY TO USE.

The SEBO design goes deeper than superficial styling. SEBO vacuum cleaners are built to work. They are easy to maintain and simple to use.

The entire machine is user friendly - It can be disassembled in minutes (no tools are necessary). Finding and clearing blockages has never been easier.

40-foot Cord

Ergonomic Hand Grip

Crevice and Upholstery Tools

Active wand and flexible hose with 8-foot reach

On-Board Tools include the Crevice Tool, Upholstery Nozzle and Dusting Brush

Carrying Handle

Practical Hand Grip

Flat-to-the-Floor Profile

5.5 inches

THE SEBO AUTOMATIC X INTELLIGENT DESIGN

The electronic controls identify the floor and the height of the carpet nap, raising or lowering the brush automatically.

Automatic Height Adjustment: From Hard Floor to Carpet. The SEBO automatic X-Series vacuum cleaner is the most technically advanced upright vacuum cleaner in the world. Its ability to monitor the resistance of the brush roller against the floor allows it to raise or lower the power head automatically to the proper cleaning height. This guarantees optimal cleaning performance on all types of carpet and flooring and protects the floor from damage.

The Intelligent Design of the SEBO automatic X ensures that the cleaning of hard floors (as well as carpets) is highly effective. The sealing strip on the bottom of the machine stops the kickback of dirt and channels the airflow through the remaining three sides, increasing the cleaning performance.

The Electronic Control is the brain of the SEBO automatic X vacuums. Not only does it control the automatic brush height adjustment, it is equipped with warning systems and automatic shut-off capabilities that are designed to alert the user to machine problems such as clogs, full bag and brush obstructions.

Lifetime Belt Warranty. The reinforced toothed belt on the SEBO automatic X-Series vacuums will not slip or stretch resulting in a more efficient use of power and should last the life of the machine.

THE SEBO AUTOMATIC X FILTRATION

The 3-step filtration system:

First, the three-layer, full-size filter bag (a) collects the vast majority of the debris.

Then, any remaining particles are collected by the hospital-grade microfilter (b).

Finally, the micro-exhaust filter (c) cleans the exhaust air that the vacuum emits.

The S-class filtration system, as described above, results in 99.9% effectiveness to 0.3 microns*, making the SEBO automatic X vacuums the perfect choice for those with allergies and asthma. A charcoal microfilter is available for odor removal.

*Measurement SLG/Chemnitz
SEBO uses only fiberglass-free filters.

OPTIONAL ATTACHMENTS

Turbo Brush - For stairs & upholstery. Air-driven rotating brush for small or awkward areas. Part # 6179 DA

Extension Hose (9 ft.) - When connected to machine hose, extends the reach to approx. 15 ft. Part # 1495 AM

Parquet Brush - For cleaning all hard surface floors. Part # 1359 DG

Straight Tube - The 20-inch SEBO straight tube can be fitted to the active wand for extended reach to areas that are higher off the floor. It is perfect for reaching corners and ceiling fan blades. Part # 1084 HG

Radiator Brush - For cleaning narrow spaces. Attaches to the crevice nozzle. Part # 1496 HG

Charcoal Filter - Combines S-class filtration with activated charcoal for odor control. Part # 5425 AM

FOR EVERY TASK, THE PROPER MACHINE.

INCLUDED
ON-BOARD TOOLS

X4 EXTRA

The X4 EXTRA comes with two additional attachments: the turbo brush and a 9-foot extension hose.

X4

X5

All X-Series vacuums include three on-board tools: the upholstery nozzle, dusting brush and crevice nozzle.
